## RULES:

Once your payment is received, your name will be logged in a randomly assigned square on the grid. After all squares are filled, numbers 0-9 will be randomly assigned to each column and row header on the grid. The winner is determined by the last digit of each team's score at the end of each quarter, matching those digits on the grid to see where the squares intersect. For example, if the Home Team's score is 10 and the Visitor Team's score is 13 at the end of the 1st quarter, the participant whose square intersects at 0 (Home) and 3 (Visitor) wins that quarter.
